Home INR Monitoring

USING PATIENT PORTAL TO ENGAGE PATIENTS AND GATHER DATA

CHARLES KITZMAN, MMI CHIEF INFORMATION OFFICER SHASTA COMMUNITY HEALTH CENTER DECEMBER 6 2016

Agenda

- Introduction
- General Portal Concerns/Strategies/Feedback
- Development of the Concept/Drivers/Goals
- Build Barriers Implementation Lessons Learned
- Process
- Demonstration
- Discussion

Vital Signs

- FQHC Since 1988 32,000 Unduplicated pts
- 140,000 Encounters
- 40 FT Providers
 - Primary Care/Pediatrics/Behavioral Health/Ryan White/Homeless
 - Residency 2-2-2 | NP/PA Post Graduate Fellowship
 - 19/19 Score HRSA Site Visit June 2015
- NextGen shop. EPM 2004/EMR 2007
- "We go first a lot."
 - Portal/EPCS/Scribes/HIE

Timeline and Numbers

- Went live Oct 2011 Phased Approach
- Communications→Refills→Appointments→PHR
 →Interactive Forms→ Bill Payer
- 39182 Enrollees (Including Declinations)
- 2755 Super Users >3/yr uses since signing up
- > 53K messages handled
- 5000 appointment requests
- 10K Medication refills

Meaningful Use

 Electronic access to health records

Patient Centered Medical Home

 Patient -centered health IT and analytic tools

Health Reform

 Strategic
 differentiator for patient engagement

Drivers

Benefits

Patients:

- Conveniently view personal health information
- Request / schedule appointments
- Communicate securely with providers
- Links to credible info

Clinics Providers:

- Administrative efficiencies (less calls)
- Push routine tasks to care team
- More time for critical patients

Patients:

- "Digital Divide"
- Literacy
- Language
- Privacy concerns

Providers:

- Potential for added work
- Lack of reimbursement
- Inappropriate use by patients
- Liability for security breaches

Barriers

Hows it Work?

- *Uses Patient email as point of contact
 - *Less likely to change than a physical address/phone
 - * Notifications are sent to email prompting patient to visit the portal
- *Functionality = Basic Communications, Medication refill requests, Appointment requests, Forms*, Pt Education
- *Can send documents created by EMR/Scans through portal
- *Try to make the phone ring less
- *Move toward data capture/patient engagement

Set Expectations

*Respond within 2 business days
*Keep communication methods congruent
*Can request but not *make* appointments
*Establish trust in the tools by exceeding expectations
*Solicit input via surveys and advisory groups

Obstacles

*How to manage minor confidentiality *Promoting use/make it attractive* *Issues with user security (nurse) *Lack of analytics from vendor *****PHR updates *Staff Engagement

Here to stay.....

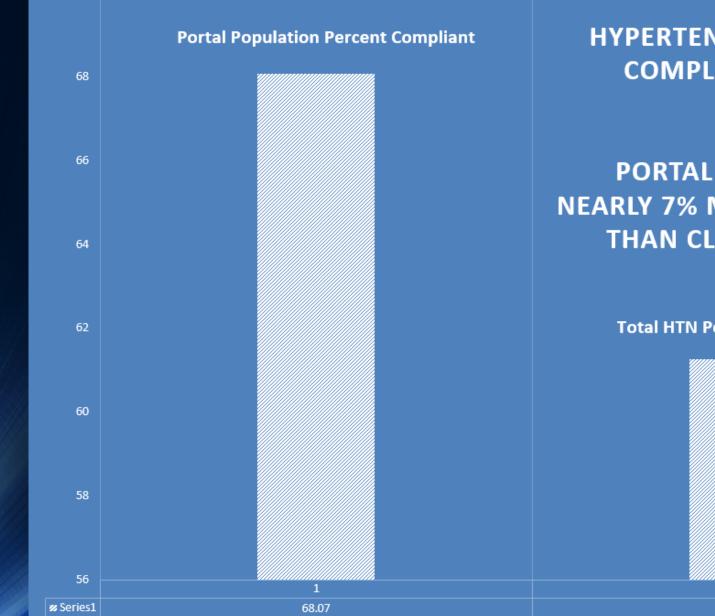

- *Slow climb/be patient Even the best systems took time
- *Expect greater mobile device integration in the future *Alternative Touch option Providers carry most weight in promoting the tool

Outcomes/Use Data to Promote

HYPERTENSION PATIENTS COMPLIANCE RATES

PORTAL POPULATION NEARLY 7% MORE COMPLIANT THAN CLINIC AVERAGE

Total HTN Population Compliant

61.26

Advice/Takeaways

*Route messages using existing workflows
 *Establish trust in the system by answering ASAP/Service Model

*Compare tools and challenge vendors

Engage clinicians to help promote the product

*Monitor and analyze for trends/build canned responses

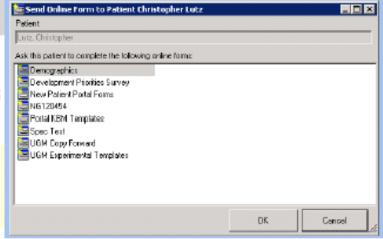

Portal Data Forms

Agenda

- Life Cycle of Online Forms (Templates)
- Online Forms
 - KBM Patient Portal Templates (Online forms)
 - Custom Created Templates (Online Forms)
 - Publishing Form Sets
- Supported Functionality
- Interactive Medical History (IMH)
 - IMH Discrete

- The template is assigned to the patient.
 - Enrollment
 - Manual Assignment
 - Attachments to communications

- Preprocessing Event
 - Demographic information is extracted and prepopulated
 - Copy Forward Data is prepopulated
 - The NextGen Communication Services fires the special "Prepopulate" triggers
 - Snap shots of picklists are taken

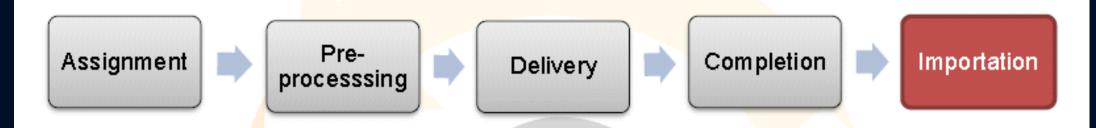

- Delivery
 - Template is posted to the website
 - Patient Receives the email notification

- Completion
 - Patient completes the template online
 - Template is delivered to the practice for importation

Established	d Patient - Update Packet (Page 3 of 5)	~

How to customize Patient Portal templates:

- In template editor, copy the template nxmd_spec_type. It is recommended to name the template according to the speciality and type of template. You must choose "Create New" as the Template Fields option. For example a Pediatric medication template would be named nxmd_peds_meds.
- 2.) Launch the configuration popup from the Custom Patient Portal templates grid. Right-click and select add new.

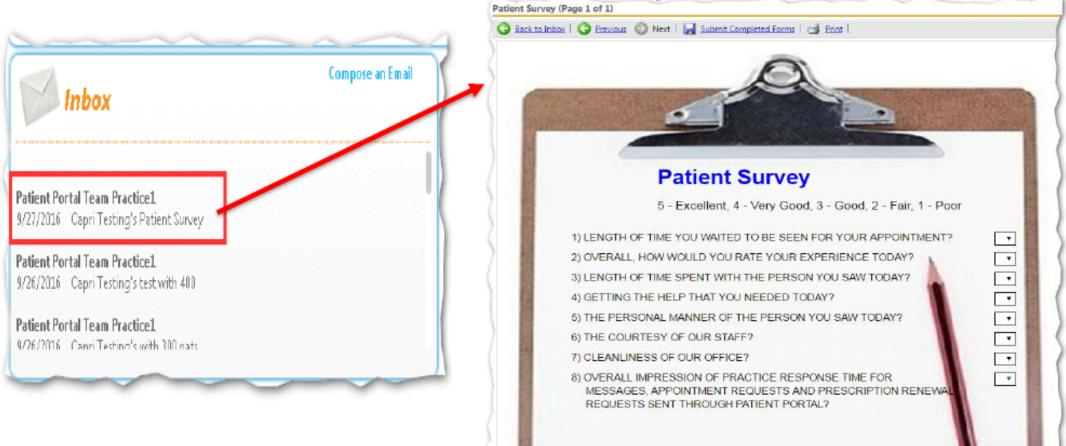

Create Template – Sample

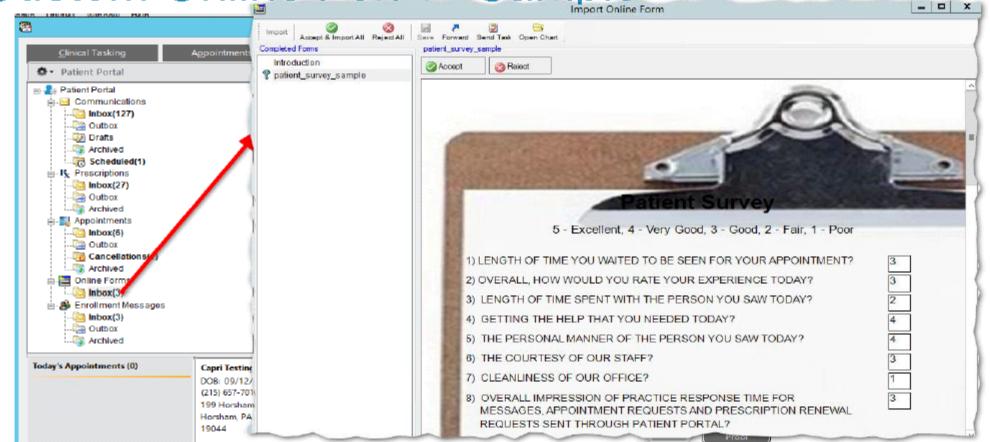

5: - Excellent; 4: - Very Good, 3:-: Good; 2: - Fair; 1: - Poor :

 LENGTH OF TIME YOU WAITED TO BE SEEN FOR YOUR APPOINTMENT?
 OVERALL, HOW WOULD YOU RATE YOUR EXPERIENCE TODAY?
 LENGTH OF TIME SPENT WITH THE PERSON YOU SAW TODAY?
 GETTING THE HELP THAT YOU NEEDED TODAY?
 THE PERSONAL MANNER OF THE PERSON YOU SAW TODAY?
 THE COURTESY OF OUR STAFF?
 CLEANLINESS OF OUR OFFICE?
 OVERALL IMPRESSION OF PRACTICE RESPONSE TIME FOR MESSAGES, APPOINTMENT REQUESTS AND PRESCRIPTION RENEWAL REQUESTS SENT THROUGH PATIENT PORTAL?

SCHC Custom Template – INR project

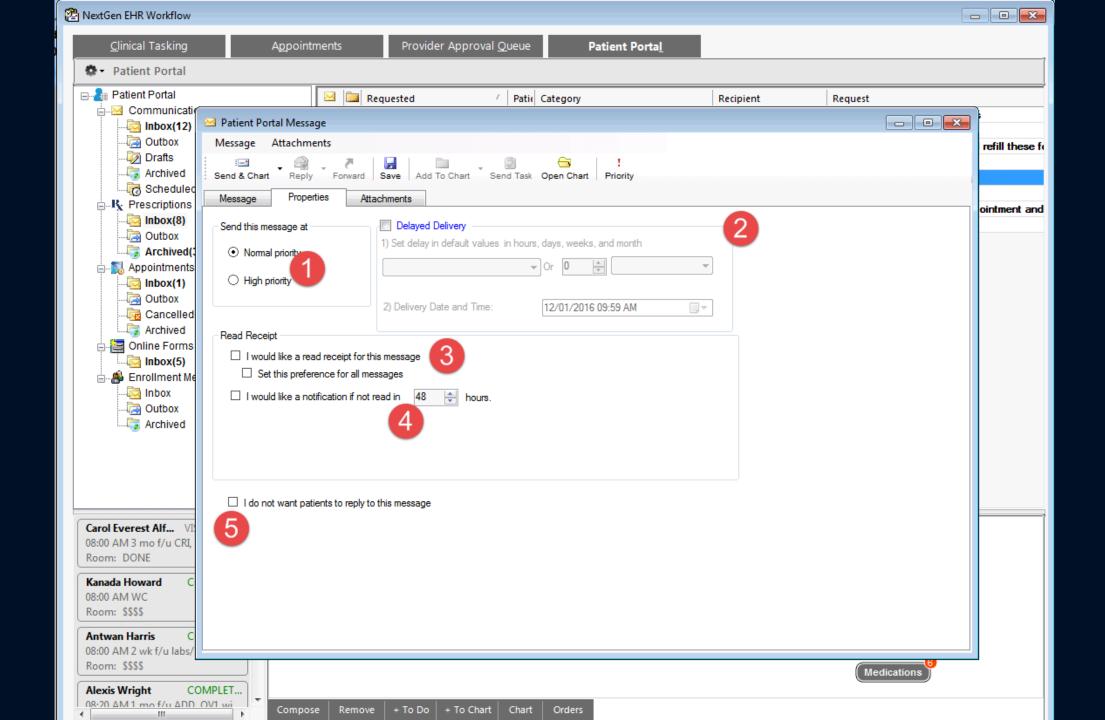

- PDSA Plan Do Study Act Requirement for all Managers
- Coumadin Program 200 patients. 1 RN manages using integrated EHR/Reporting process.
- Some Medicare patients have Home INR monitors
- Generally more complaint than rest of cohort
- Medicaid does not cover Home INR machines

If Medicaid Pts had Home INR, will it improve compliance?

- Identify 10 patients with the following criteria
 - Partnership Health (MediCal Managed Care Patients
 - History of non-compliance
 - Been in the program for at least 18 months.
- Purchase Machines and Distribute to 10 patients
 - If not portal account, create one.
 - Train on both machine and portal at next scheduled appointment.
- Get data
 - Ask PHC for True cost going back 18 months on all 10 patients
 - Compare to the pilot after 6 months.
- Present Case to PHC
