# ATSH Background

- Addiction Treatment Starts Here: Primary Care (ATSH:PC) supports primary care clinics in expanding access to Medications for Addiction Treatment (MAT) for patients with opioid use disorder.
- ATSH:PC has two waves of teams:
  - Wave 1 includes 39 clinics and started in February 2019
  - Wave 2 includes 17 clinics and started in September 2019
- All teams are (informally) assigned to a track:
  - Track 1: Teams that are starting new MAT programs, or are working to put more infrastructure in place
  - Track 2: Teams that are expanding MAT to new sites and/or refining existing programs

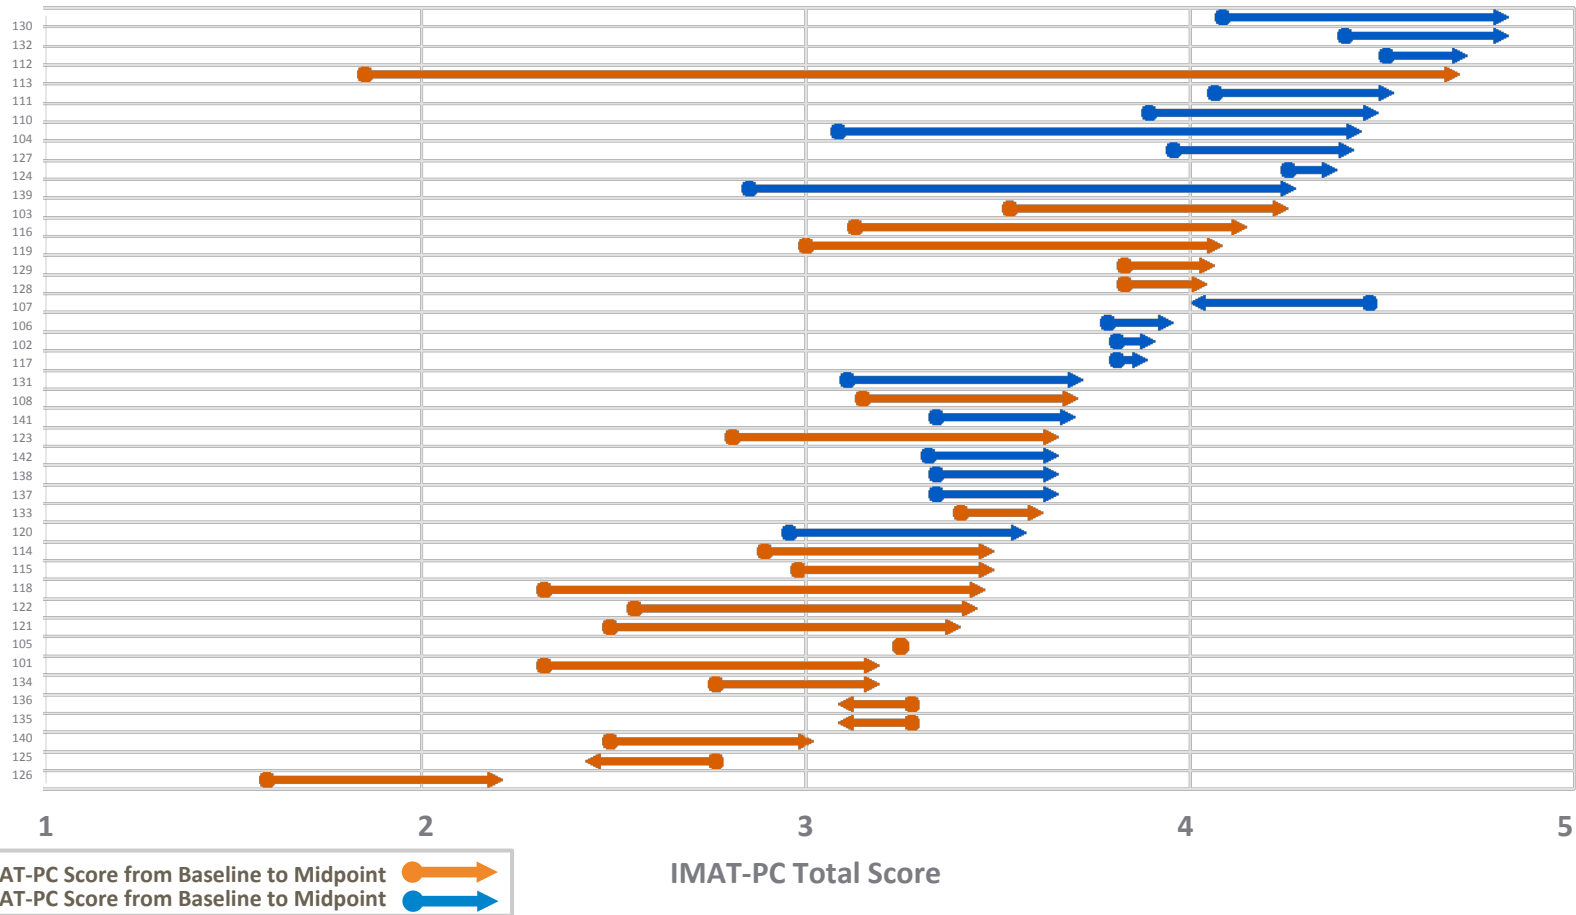

ATSH:PC is funded by the California Department of Health Care Services and Cedars-Sinai Community Benefit Giving Office
