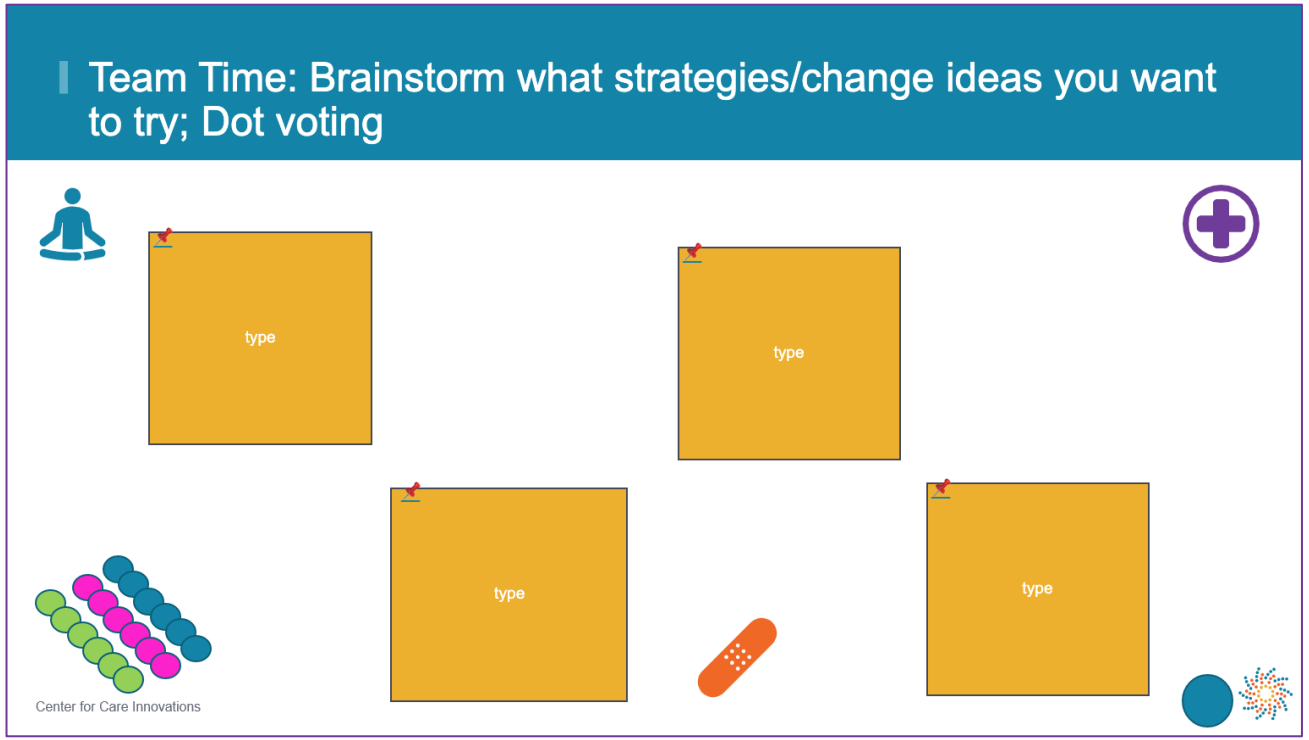
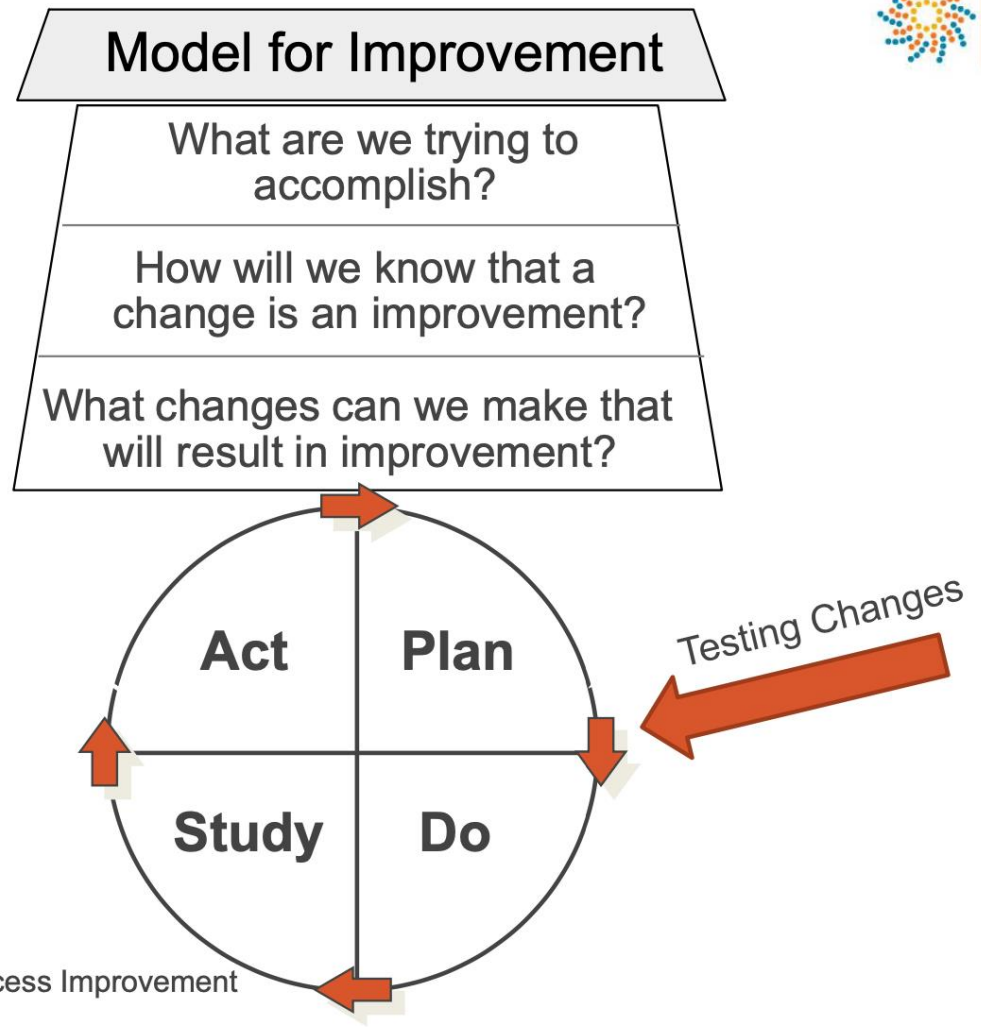
DISCUSSION

Team Time

Team Breakout

Given our IMAT data, what are our next steps? Which dimensions would be most important to focus on?





From Associates in Process Improvement

Activity 2: Plan out your first PDSA

In your Team Space

Describe the Test (objectives, why)

What/Where	Who	When

Predict what you believe will happen

Activity 2: Plan out your first PDSA

SAMPLE

Describe the Test (objectives, why)
Create a virtual space (aka Team Space) that each of the teams can use throughout the Learning Session that would mimic what they might do together during an in-person session; flexible, easy, familiar

What/Where	Who	When
Develop a powerpoint prototype to test with core team	JCP	10/25
Send it to teams a couple of days early to practice using	LZ	11/7
Use the Team Space during the Learning Session	All	11/10

Predict what you believe will happen
Some people will find it easy to use, some might have questions about how to manipulate the elements (copying & pasting or re-sizing icons), participants will give us feedback on how to make it even better
