Amplify Healing Connections Virtual Share and Learn Webinar March 22, 2022

The 2022 Women's History theme, "Providing Healing, Promoting Hope," is both a tribute to the ceaseless work of caregivers and frontline workers during this ongoing pandemic and a recognition of the thousands of ways that women of all cultures have provided both healing and hope throughout history.

As we begin, feel free to share in the chat a woman or femme identified person who has provided healing and hope to you

Designing for Sustainable Change

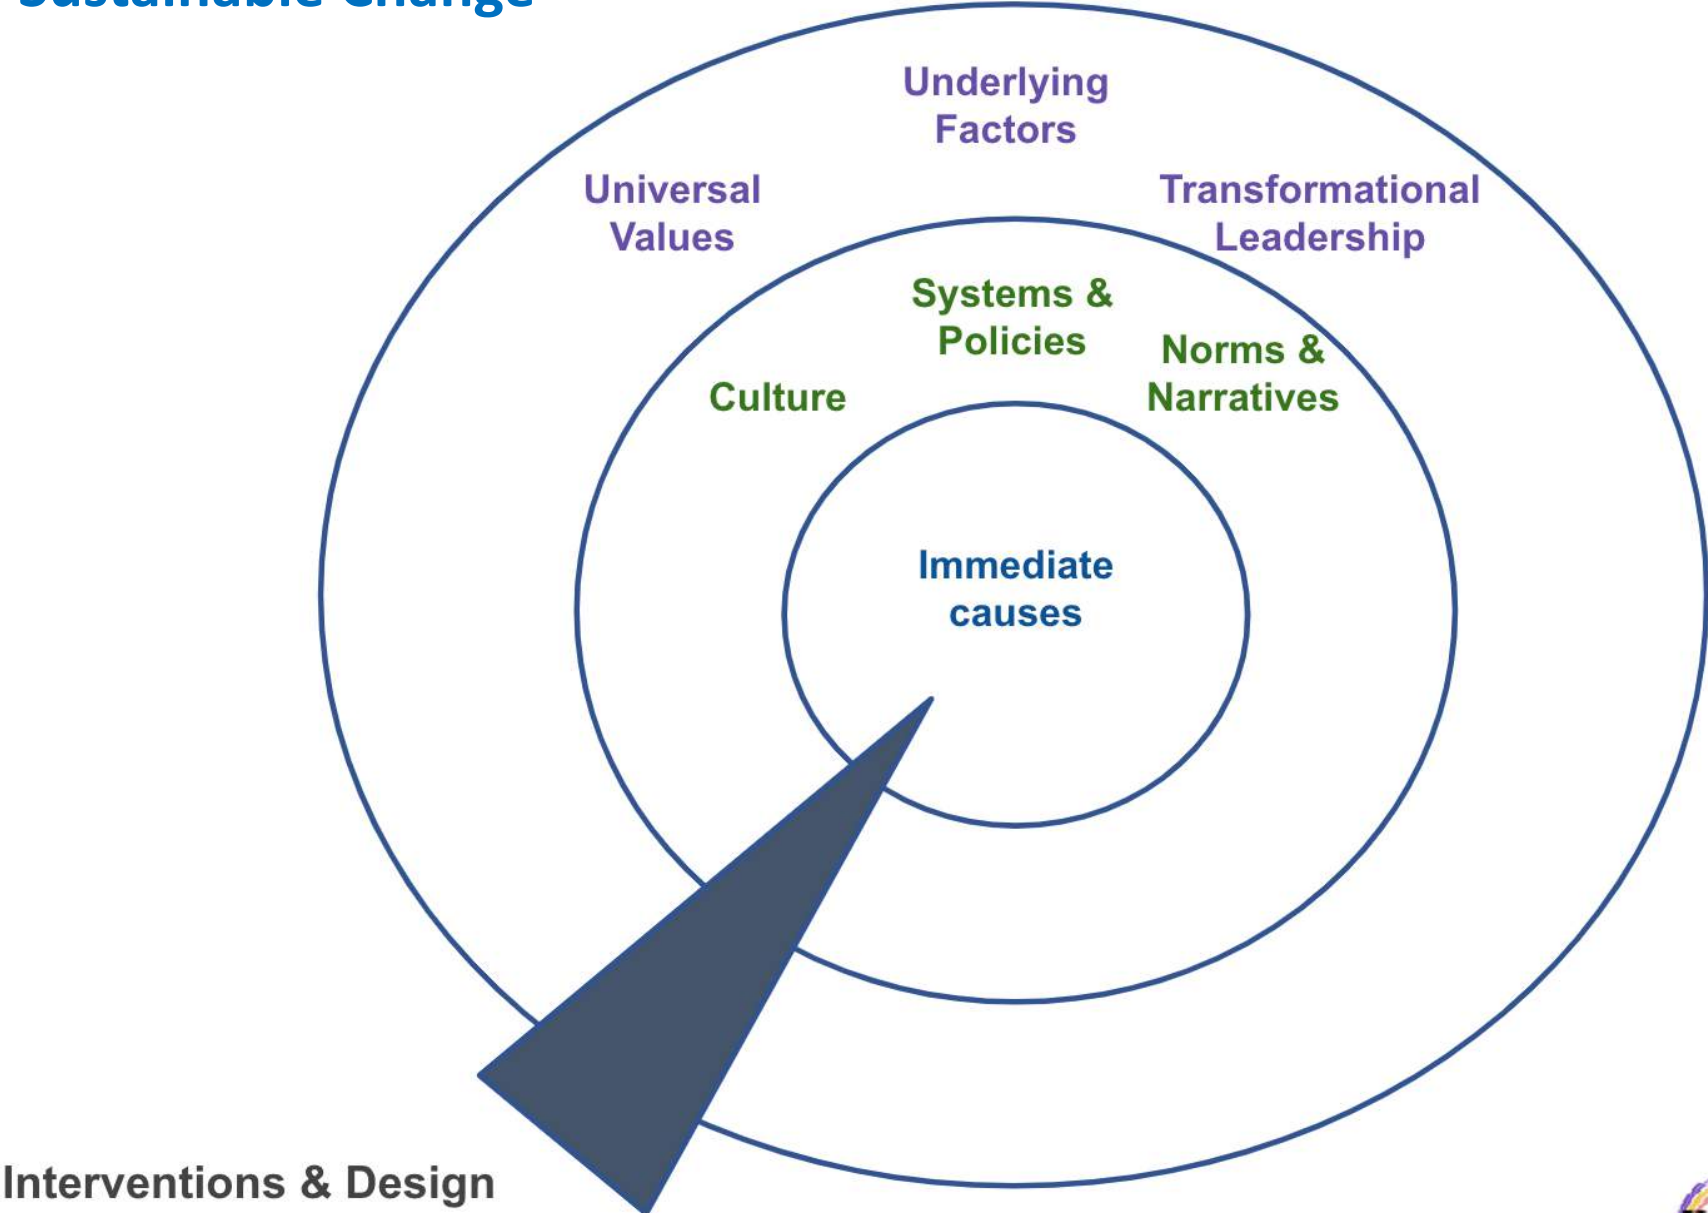

Designing for Sustainable Change

1. What is the immediate need/problem/issue we are solving?
2. What are 3-5 key shifts in culture, norms, and/or policy to help sustainably address this issue?
3. What are the universal values of our project? Are all aspects of our project in alignment with these values? If not, what's missing?

Interventions & Design

Designing for Sustainable Change

Breakout Rooms:

1. Identify a notetaker/scribe

2. Refer to the worksheet, and reflect on the three questions related to sustainable change, focusing on Q2:

“Identify 3-5 systems, policy or norms shifts the partnership needs to contribute to to help create sustainable change”

3. How is the partnership currently contributing to these shifts? What’s missing?
