What is a Sip & Share?

It's an approach for sharing promising practices over coffee/tea.

The goal is to inspire you, get you interacting with innovative concepts & have you walk away with workflows, scripts & more!

The 90-minute, rotating session, works like this:

2-Minute Pitch

Before the session, CCA teams that are presenting will have 2-minutes to pitch to the entire group, sharing a high-level overview of their innovation.

Peers self-select the session of their choice

CCA participants *not* presenting will have an opportunity to self-select which innovation they would like to hear more about.

10-Minute Presentation with Q&A

For 15 minutes CCA participants, will have the opportunity to learn more about their peer's innovations. You'll not only walk away with artifacts, but you'll have the opportunity to ask meaningful questions them about what's being present by each innovator.
