

CSA BOXES

La Clinica partnered with a local Sustainable Cooperative, which sells subscriptions to produce boxes, known as CSA Veggie Boxes, to the community over a several-month season each year.

The Wellness Center is a pick-up location and all La Clinica patients and employees have access to this opportunity. Additionally, we have partnered with one of our Coordinated Care Organizations, through this partnership, patients will only pay 1/3 of the cost. Participants agree to pay a weekly fee that varies depending on the size of the delivery. They are able to utilize Food Stamps to cover the cost of this service.

Community-supported agriculture subscriptions like this one provide participants with organic, locally grown produce in season.
