Center for Care Innovations

Strengthening the Health and Well-Being of Underserved Communities

Spark

New ways of working & creative problem solving

Seed

The research, testing & implementation of fresh approaches

Spread

Successful innovations, so our network rapidly adopts best practices

Background

California Health Care Foundation

Chris Perrone

Director, Improving Access to Care

A Tipping Point for Telehealth in California's Safety Net

- Provide direct funding to safety-net providers and create a learning collaborative
- Develop and disseminate educational resources, tools and technical assistance
- Advance policy and payment reforms
- Monitor and evaluate the impact of telehealth on patients and providers

Program Structure

Connected Care Accelerator

An initiative designed to support organizations in different implementation phases of “virtual care,” also commonly known as “telehealth” or “telemedicine.” The accelerator has two separate tracks:

**Infrastructure & Spread
Track**

**Innovation Learning
Collaborative Track**

Track Comparison

	Infrastructure & Spread Track	Innovation Learning Collaborative Track
Grant size	\$50,000	\$100,000
Content Webinars	Optional participation	Required participation
Learning & Sharing Sessions		Required participation
Site Visits to exemplary sites		Required participation
Office Hours with experts		Optional participation
CCI Academy & Web Resources	Optional participation	Optional participation
Data Reporting (including interviews)	Required participation	Required participation
Application Materials Needed	Submission Form Narrative Budget Tax Status Documentation	Materials listed on the left Leadership Support Letter

Infrastructure & Spread Track

What is the Infrastructure & Spread Track?

A 12-month program to support up to 30 safety net practices whose patients are predominantly **covered by Medi-Cal, uninsured, and communities of color.**

Infrastructure & Spread Track

Goal & Expectations

The goal of this track is to support **early implementation** and build the necessary infrastructure to provide virtual care.

Identify a team lead that will be responsible for managing the virtual care efforts at their organization.

Collect & submit data 3 times during the program on a standardized set of measures, as well as contributing to sharing stories about the impact of the work.

Participate in qualitative interviews with the evaluation team, as needed

Statewide Initiative

\$50K in Grants

Patient & Community
Involvement

Data Reporting &
Evaluation

Tools*

Resources*

CCI Academy*

Webinars*

* = Optional

Infrastructure & Spread Track

Data Reporting by Categories

The purpose of the measures is to support teams in understanding their progress over the course of the program and to understand how the virtual care efforts are advancing across the participants.

**Primary Care
Visits by Type***

**Behavioral Health
Visits by Type***

**TeleHealth Visits
by Payor Type***

*** = Refer to appendix for details**

Who's Eligible?

Safety-net health care organizations that provide comprehensive primary care services primarily to a substantial percentage of Medi-Cal and uninsured patients.

Federally qualified health centers (FQHC) and FQHC look-alikes

Community clinics, rural health clinics, and free clinics

Ambulatory care clinics owned and operated by public hospitals

Indian health service clinics

Independent provider care practices

Infrastructure & Spread Track

Eligible organizations must meet the following criteria.

Providers actively use an **EMR System**.

The organization serves **at least 8,000 unduplicated patients**.

Must meet any of the following three criteria:

- Patient population is at least 70% Medi-Cal and/or uninsured
- Patient population is at least 40% Medi-Cal and/or uninsured, as well as 20% Black
- Patient population is at least 40% Medi-Cal and/or uninsured, as well as 70% non-white

Organizations **have NOT received telehealth grant funding from HealthNet** in the last four months.

Innovation Learning Collaborative Track

What is the Innovation Learning Collaborative Track?

A 12-month learning collaborative to support up to 20 safety net practices where the **majority of their patients are covered by Medi-Cal and uninsured.**

This track is designed for **organizations further along in their implementation of virtual care** approaches with a committed team to test, learn and share best practices.

Innovation Learning Collaborative Track

Goal & Objectives

The goal of this track is to provide a testing ground & support for organizations to **rapidly design, test and share solutions** to effectively care for patients using virtual care strategies.

Identify the biggest challenges & opportunities to strengthen population health management, build virtual care teams, and address how to engage patients with digital barriers.

Identify and test virtual care delivery changes to better understand the infrastructure, data, staff, and skills necessary to support these changes.

Uncover & document the best practices to effectively remotely manage patient populations.

Share best practices & bring successful changes to scale.

Innovation Learning Collaborative Track

Support & Delivery

Statewide Learning Community

\$100K in Grants

Primary Care & BH Visits by
Race & Ethnicity*

* = Refer to appendix for details

Innovation Learning Collaborative Track

Who's Eligible?

Safety-net health care organizations that provide comprehensive primary care services primary to **at least 8,000 unduplicated patients**.

Medi-Cal and uninsured patients must make up **at least 50 percent** of the organization's total patient population.

Federally qualified health centers (FQHC) and FQHC look-alikes

Community clinics, rural health clinics, and free clinics

Ambulatory care clinics owned and operated by public hospitals

Indian health service clinics

Independent provider care practices

Innovation Learning Collaborative Track

Program Requirements

- **Leadership Buy-in**
- **Patient & Community Involvement**
- **Continuity & a Dedicated Team**
- **Participation in Program Activities**
- **Data Reporting & Evaluation Activities**

Innovation Learning Collaborative Track

What makes a strong applicant?

Prior experience & desire to expand virtual care capabilities.

Clear vision of how to sustain the efforts in this program.

Data, IT, and QI Systems in place.

Key Dates & Timelines

How to Apply

Applicant organizations must submit the following materials:

1. Application Form
2. Application Narrative
3. Budget Template
4. Tax Status Documentation
5. *Letter of Leadership Support**

**All materials must be received
by 5:00PM PST on
Friday June 19, 2020**

* = Innovation Learning Collaborative Track Only
