Description: This final virtual session will be a celebration of the efforts and achievements of everyone who engaged in the SMTSN initiative. Participants will have an opportunity to share and hear from their peers about the impact of telehealth and key learnings from the program. Each participating health center will also be recognized for their important and unique contributions to the initiative.

Presenters:

- Representatives from each of the 9 health centers who participated in the SMTSN initiative

Before the session: The storyboard pre-work is designed so that your team can reflect on your journey through the SMTSN program and share lessons with others.

- A customized template and instructions was sent to the lead(s) for each health center and is due to alexis@careinnovations.org **by June 9th**, along with any key tools or resources that have been integral to your telehealth implementation progress.
- Please designate a spokesperson from your clinic to be prepared to speak during the session about 4 key slides from your storyboard: 1. telehealth journey, 2. total number of telehealth encounters over their participation in the initiative, 3. an impact story, and 4. key takeaways.

Logistical instructions: [Register](#) and use custom link to join the meeting. At the start of the session (once you've logged into zoom):
